French task: sounds of words   v1

Name _____   School: _____

INSTRUCTIONS
Here are three made-up English words. Two of them sound the same – the ones with rings round them. There is a number "2" in the box on the right, because two of the words sound the same.

Example	(vate)	voot	(vait)	2

Here are another three made-up English words. Again, two of them sound the same, so there is a number "2" in the box on the right. There are rings around the two words that sound the same:

Example	(tream)	(treem)	trome	2

Finally, here are three made-up English words which all sound different to each other. Therefore there are no rings around any of them. There is a number "0" (zero) in the box on the right.

Example	zall	zorg	zale	0

En français maintenant!
Now we are going to look at some made-up **French** words. Look at each group of three words in turn. Think about how they would sound in French.

1. Put a ring around any words which sound the same **in that group of three**.
2. In the box on the right, write down how many words sound the same **in that group of three**.
3. In each group of three, there might be *no* words which sound the same; or there might be *two* which sound the same.

1	blais	blait	blare	
2	vuis	vart	vès	
3	nande	nands	nand	
4	puite	pien	pource	
5	grois	groit	gromme	

Tourne la page *(Please turn over)* →

6	nant	nel	nans	
7	lerres	leux	leut	
8	jite	ji	jit	
9	choin	choint	chont	
10	bloute	bloues	blout	
11	nent	nemps	nas	
12	goux	gous	gaque	
13	quis	qués	quise	
14	drère	drire	draire	

Now please answer this question by ticking **one** box:

If you did another exercise like this, how well do you think you would be able to do it?

Very well	Quite well	Not that well	Not well at all

MERCI BEAUCOUP!
